PROFESSIONAL SUMMARY

Cloud Generative AI Engineer with over 15 years of experience in AI-driven cloud solutions, specializing in developing and deploying scalable AI applications using Azure AI Foundry and Kubernetes. Proven expertise in integrating AI services with enterprise APIs and optimizing cloud infrastructure for AI workloads. Skilled in Python, Generative AI, and implementing CI/CD pipelines to enhance deployment efficiency and system performance.

TECHNICAL SKILLS

- **Languages:** Python, C#, SQL
- **AI & ML:** Generative AI, LLMs, Azure AI Foundry, Azure OpenAI, Amazon Bedrock, Google Vertex AI
- **Cloud & DevOps:** Azure, AWS, Google Cloud Platform, Docker, Kubernetes, Terraform, Azure DevOps, GitHub Actions
- **Frameworks & Tools:** FastAPI, REST APIs, Databricks, Azure Synapse Analytics
- **Security & Compliance:** AI Security, Responsible AI, RBAC, GDPR, HIPAA

PROFESSIONAL EXPERIENCE

Senior Cloud Generative AI Engineer

Jan 2024 – Present

Concora Credit

Beaverton, OR

- Developed cloud-native AI applications using Azure AI Foundry, enhancing enterprise-grade financial platforms.
- Architected scalable RAG solutions and integrated AI services with REST APIs for seamless enterprise integration.
- Deployed AI applications using Kubernetes and Docker, optimizing performance and scalability.
- Implemented CI/CD pipelines with GitHub Actions and Azure DevOps, improving deployment frequency by 30%.
- Ensured AI governance and security compliance with industry standards such as PCI-DSS and GDPR.
- Optimized cloud infrastructure for AI workloads, leveraging Terraform for infrastructure as code.
- Monitored AI applications using Azure Monitor and Log Analytics, enhancing operational intelligence.

Azure Cloud Engineer

Dec 2019 – Dec 2023

Conduent

Austin, TX

- Engineered cloud-native AI solutions on Azure, supporting healthcare operations with high availability and scalability.
- Led the integration of AI services with FHIR and HL7-based cloud pipelines for healthcare interoperability.
- Automated data processing workflows using Azure Data Factory and Databricks, ensuring efficient data movement.
- Implemented AI security measures and compliance with HIPAA and GDPR standards.
- Developed CI/CD pipelines with Terraform and Azure DevOps, facilitating consistent deployment of AI resources.
- Optimized cloud-based big data environments using Azure Synapse Analytics and HDInsight.

Azure Data Engineer

Mar 2018 – Dec 2019

Unify Solutions Inc, Client: Toyota

Plano, TX

- Designed Azure-based data integration solutions, optimizing data processing workflows for AI applications.
- Developed ETL/ELT pipelines integrating Azure SQL and Cosmos DB, enhancing data accuracy by 30%.
- Implemented real-time analytics dashboards using Power BI and Azure Synapse for business intelligence insights.
- Automated data transformation processes with Azure Data Factory, ensuring metadata consistency.
- Collaborated on AI microservices deployment using Kubernetes, improving operational efficiency.

Data Engineer

Dec 2016 – Mar 2018

Protivix

Dallas, TX

- Implemented distributed cloud infrastructure on Azure, supporting scalable AI solutions.
- Configured Azure Virtual Networks and VPNs for secure cloud connectivity.
- Developed REST APIs and managed API gateways for secure AI service integration.
- Automated deployment processes using ARM Templates and PowerShell, enhancing operational efficiency.

SharePoint Architect

Nov 2015 – Dec 2016

Baltimore County Gov

Towson, MD

- Designed and implemented SharePoint solutions, supporting enterprise project management and migration.

- Developed dashboard reports using Power BI, enhancing cost-tracking analysis for the PMO office.
- Led training on SharePoint implementation and integration, improving team proficiency.

Project Server/SharePoint Consultant

Mar 2009 – Nov 2015

Quintiles

Raleigh, NC

- Led the design of Project Server solutions for clinical trial management, optimizing resource planning.
- Developed custom components and automated deployment tasks using PowerShell scripts.
- Configured and monitored Project Server environments, ensuring high availability and performance.

KEY PROJECTS

AI Microservices Deployment | *Kubernetes, Docker, GitHub Actions, Azure DevOps*

Feb 2024

- Designed AI microservices architecture using Kubernetes, enhancing scalability and performance.
- Implemented CI/CD pipelines for AI deployments, reducing deployment time by 40%.
- Optimized AI workloads for performance, ensuring compliance with AI governance standards.
- Ensured security compliance and monitored applications using Azure Monitor.

EDUCATION

Andhra University

Jul 2000

Master of Computer Applications

Visakhapatnam, India

Nagarjuna University

Jun 1996

Bachelor of Sciences

Guntur, India

CERTIFICATIONS & ACHIEVEMENTS

- AZ-104: Microsoft Azure Administrator
- AZ-303: Microsoft Azure Architect Technologies
- Databricks Certified Data Engineer Professional
- AZ-304: Microsoft Azure Architect Design
- PMP Certified Professional
- 70-339: Managing Microsoft SharePoint Server 2016
- 70-343: Managing Projects with Microsoft Project 2013/2016
- MCAD: Microsoft Certified Application Developer
