PROFESSIONAL SUMMARY

Dynamic Software Engineer with 15+ years of experience in designing and deploying scalable healthcare solutions using Java 17/21 and Spring Boot. Proficient in building microservices architectures and implementing healthcare interoperability standards such as HL7 FHIR. Demonstrated expertise in integrating AI-powered solutions and event-driven architectures to enhance healthcare operations. Skilled in cloud deployment strategies using Docker and Kubernetes, with a focus on continuous improvement and innovation.

TECHNICAL SKILLS

- **Languages:** Java 17/21, Python, C#, SQL
- **Frameworks & Libraries:** Spring Boot, Hibernate, Apache Kafka
- **Databases:** Oracle, PostgreSQL, MySQL
- **Cloud & DevOps:** Azure, AWS, Docker, Kubernetes, CI/CD, GitHub Actions
- **Tools & Technologies:** RESTful APIs, Microservices, HL7 FHIR, OAuth 2.0, JWT

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Jan 2024 – Present

Concora Credit

Beaverton, OR

- Architected and deployed AI-powered microservices for real-time financial analytics, leveraging Java 17/21 and Spring Boot.
- Implemented HL7 FHIR standards to enhance data interoperability across financial systems.
- Developed event-driven architectures using Apache Kafka for proactive anomaly detection and monitoring.
- Led the deployment of scalable cloud solutions using Docker and Kubernetes on Azure.
- Established CI/CD pipelines with GitHub Actions, improving deployment efficiency by 40%.

Software Engineer

Dec 2019 – Dec 2023

Conduent

Austin, TX

- Designed and developed healthcare interoperability solutions using HL7 FHIR and Da Vinci Implementation Guides.
- Built and maintained RESTful APIs and microservices for healthcare data integration.
- Implemented event-driven architectures with Apache Kafka to streamline claims processing and provider network analytics.
- Optimized cloud deployment strategies using Docker and Kubernetes, enhancing system scalability and performance.
- Automated CI/CD processes using Azure DevOps, reducing deployment time by 50%.

Azure Data Architect

Mar 2018 – Dec 2019

Unify Solutions Inc, Client: Toyota

Plano, TX

- Developed scalable data pipelines and microservices for automotive data processing using Java and Spring Boot.
- Integrated Apache Kafka for real-time data streaming and processing.
- Enhanced data security and compliance using OAuth 2.0 and JWT for API security.
- Led cloud migration projects to Azure, optimizing data storage and retrieval processes.

Software Architect

Dec 2016 – Mar 2018

Protivix

Dallas, TX

- Designed distributed cloud infrastructure using Azure, ensuring high availability and performance.
- Implemented microservices architecture and API management for secure data exchange.
- Automated deployment processes using ARM Templates and Azure CLI, improving operational efficiency.

SharePoint Architect

Nov 2015 – Dec 2016

Baltimore County Gov

Towson, MD

- Led the design and implementation of SharePoint solutions, enhancing project management and collaboration.
- Developed governance frameworks and security protocols to ensure compliance with industry standards.

Project Server/SharePoint Consultant

Mar 2009 – Nov 2015

Quintiles

Raleigh, NC

- Managed enterprise Project Server solutions for clinical trial management, optimizing resource planning and tracking.
- Developed custom components and automated deployment tasks using PowerShell scripts.

KEY PROJECTS

Healthcare Microservices Platform	May 2023
• Developed a microservices-based platform for healthcare data integration, enhancing interoperability. • Implemented HL7 FHIR standards for seamless data exchange across healthcare systems. • Integrated Apache Kafka for event-driven data processing, improving system responsiveness. • Deployed on AWS using Docker and Kubernetes, ensuring scalability and reliability.	

EDUCATION

Andhra University	July 2000
<i>Master of Computer Applications</i>	<i>Andhra Pradesh, India</i>
Nagarjuna University	June 1996
<i>Bachelor of Sciences</i>	<i>Andhra Pradesh, India</i>

CERTIFICATIONS & ACHIEVEMENTS

- AZ-104: Microsoft Azure Administrator
- AZ-303: Microsoft Azure Architect Technologies
- Databricks Certified Data Engineer Professional
- AZ-304: Microsoft Azure Architect Design
- PMP certified professional
- 70-339: Managing Microsoft SharePoint Server 2016
- 70-343: Managing Projects with Microsoft Project 2013/2016
- MCAD: Microsoft Certified Application Developer
