PROFESSIONAL SUMMARY

Senior Full Stack Python Engineer with over 15 years of experience in designing and implementing scalable cloud solutions. Expertise in Python, RESTful web services, and AWS Secrets Management, with a proven track record in enhancing system reliability and performance. Skilled in Azure Key Vault, Terraform, and full SDLC processes, driving innovation and efficiency in software development. Committed to mentoring teams and advancing best practices in security, performance, and system observability.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, C#, SQL
- **Frameworks & Libraries:** FastAPI, React, Node.js, Django
- **Cloud & DevOps:** Microsoft Azure, AWS, Terraform, GitHub, Azure DevOps
- **Databases:** PostgreSQL, Azure SQL, Cosmos DB
- **Tools & Technologies:** RESTful APIs, Azure Key Vault, AWS Secrets Management, Linux, Windows

PROFESSIONAL EXPERIENCE

Senior Full Stack Python Engineer

Jan 2024 – Present

Concora Credit

Beaverton, OR

- Developed scalable cloud-native solutions using Python and Azure, enhancing real-time analytics and financial application workloads.
- Implemented RESTful APIs with FastAPI, improving data integration and system interoperability.
- Integrated AWS Secrets Management and Azure Key Vault for secure data access and compliance with PCI-DSS and GDPR standards.
- Architected CI/CD pipelines using Terraform and Azure DevOps, automating deployment and infrastructure provisioning.
- Optimized database queries and performance tuning in PostgreSQL, reducing query execution time by 30%.
- Led the development of self-service reporting tools using React and TypeScript, enhancing decision-making capabilities.
- Technologies: Python, FastAPI, React, AWS, Azure, Terraform, PostgreSQL

Azure Data Engineer

Dec 2019 – Dec 2023

Conduent

Austin, TX

- Designed and optimized healthcare data pipelines on Azure, ensuring scalability and security for sensitive data.
- Implemented Azure Key Vault for secrets management, enhancing data protection and compliance with HIPAA standards.
- Automated CI/CD processes using Terraform and Azure DevOps, improving deployment efficiency and data integrity.
- Developed real-time data streaming solutions, reducing hospital readmissions through enhanced care coordination.
- Technologies: Azure, Terraform, Azure Key Vault, Azure DevOps, PostgreSQL

Azure Data Engineer

Mar 2018 – Dec 2019

Unify Solutions Inc, Client: Toyota

Plano, TX

- Developed full-stack applications using Python and React, implementing RESTful services and integrating with AWS.
- Designed and implemented RESTful APIs using FastAPI, enhancing system interoperability and data integration.
- Built front-end components with React and TypeScript, improving user experience and application performance.
- Optimized database queries for performance, achieving significant improvements in data processing times.
- Technologies: Python, FastAPI, React, TypeScript, AWS, PostgreSQL

Data Engineer

Dec 2016 – Mar 2018

Protivix

Dallas, TX

- Designed and implemented distributed cloud infrastructure on Azure, ensuring scalability and performance.
- Configured Azure Virtual Networks and ExpressRoute for secure connectivity, enhancing data security.
- Led ETL process implementation, optimizing data processing times and ensuring seamless integration.
- Technologies: Azure, Terraform, Azure DevOps, PostgreSQL

SharePoint Architect

Nov 2015 – Dec 2016

Baltimore County Gov

Towson, MD

- Architected SharePoint solutions, supporting enterprise project management and data integration.
- Developed dashboard reports using Power BI, enhancing data-driven decision-making.
- Technologies: SharePoint, Power BI, Azure

Project Server/SharePoint Consultant

Mar 2009 – Nov 2015

Quintiles

Raleigh, NC

- Led the design and implementation of Project Server solutions for clinical trial management.
- Developed custom components and automated deployment tasks using PowerShell scripts.
- Technologies: SharePoint, Project Server, PowerShell

KEY PROJECTS

Full Stack Development with Python and React

Mar 2018 – Dec 2019

- Developed a full-stack application using Python and React, implementing RESTful services and integrating with AWS.
- Designed and implemented RESTful APIs using FastAPI.
- Built front-end components with React and TypeScript.
- Integrated AWS services for secrets management.
- Optimized database queries for performance.

EDUCATION

Andhra University

Jul 2000

Master of Computer Applications

Nagarjuna University

Jun 1996

Bachelor of Sciences

CERTIFICATIONS & ACHIEVEMENTS

- AZ-104: Microsoft Azure Administrator
- AZ-303: Microsoft Azure Architect Technologies
- Databricks Certified Data Engineer Professional
- AZ-304: Microsoft Azure Architect Design
- PMP certified professional
- 70-339: Managing Microsoft SharePoint Server 2016
- 70-343: Managing Projects with Microsoft Project 2013/2016
- MCAD: Microsoft Certified Application Developer
