PROFESSIONAL SUMMARY

Senior AI Developer with over 15 years of experience in designing and deploying AI-driven cloud solutions. Specializes in building AI Agents using Snowflake Cortex AI, Generative AI, and LLMs for enterprise-scale applications. Proven expertise in developing agentic workflows, orchestration frameworks, and Retrieval-Augmented Generation (RAG) solutions. Adept at integrating AI agents with enterprise data sources to deliver scalable AI-powered business solutions, ensuring robust AI governance and security.

TECHNICAL SKILLS

- **AI Technologies:** Snowflake Cortex AI, Generative AI, LLMs, RAG solutions, LangChain, Lang Graph, Semantic Kernel, CrewAI
- **Languages:** Python, C#, SQL
- **Cloud & DevOps:** Azure, Azure OpenAI, OpenAI, Anthropic, CI/CD, Git, Azure DevOps
- **Frameworks:** AI governance, AI model optimization, prompt engineering
- **Tools & Technologies:** REST APIs, microservices, cloud-native architectures, Terraform

PROFESSIONAL EXPERIENCE

Senior AI Developer

Jan 2024 – Present

Concora Credit

Beaverton, OR

- Designed and developed AI Agents using Snowflake Cortex AI, enhancing real-time analytics capabilities.
- Implemented agentic workflows and orchestration frameworks, streamlining AI-powered automation solutions.
- Developed Retrieval-Augmented Generation (RAG) pipelines, integrating enterprise knowledge solutions.
- Integrated AI agents with enterprise applications and databases, optimizing data-driven decision-making.
- Led AI governance initiatives, ensuring compliance with industry standards and security protocols.
- Optimized AI model performance through advanced prompt engineering and grounding strategies.
- Collaborated with cross-functional teams to evaluate emerging AI technologies and recommend best practices.
- Supported continuous improvement of AI solutions, enhancing scalability and efficiency.

Azure Data Architect

Dec 2019 – Dec 2023

Conduent

Austin, TX

- Architected cloud-based healthcare data platforms on Azure, integrating AI solutions for enhanced analytics.
- Implemented AI governance frameworks, ensuring compliance with HIPAA and GDPR for healthcare data.
- Developed scalable AI models and optimized data processing strategies for healthcare applications.
- Spearheaded AI-driven cloud migration strategies, improving operational efficiency and data accessibility.
- Integrated AI solutions with healthcare data platforms, enhancing interoperability and care coordination.
- Led the development of predictive models using Azure ML and Databricks for patient outcome forecasting.
- Standardized CI/CD pipelines for seamless AI solution deployments and data integrity.
- Collaborated with stakeholders to align AI initiatives with business objectives and regulatory requirements.

Azure Data Architect

Mar 2018 – Dec 2019

Unify Solutions Inc, Client: Toyota

Plano, TX

- Designed AI-driven data storage and integration solutions on Azure, enhancing analytics workflows.
- Developed AI models to improve customer retention and cross-selling opportunities.
- Implemented advanced AI governance measures, ensuring compliance and reducing data errors.
- Collaborated with cross-functional teams to resolve technical issues and optimize AI infrastructure.
- Monitored AI solution performance, providing recommendations for efficiency improvements.
- Led discussions on AI architecture, educating teams on best practices and deployment strategies.

Azure Solution Architect

Dec 2016 – Mar 2018

Protivix

Dallas, TX

- Designed distributed cloud infrastructure on Azure, ensuring scalability for AI applications.
- Implemented AI-driven ETL processes, optimizing data processing times and integration.
- Developed REST APIs and managed Azure Gateways for secure AI solution deployment.
- Automated deployment processes using ARM Templates and PowerShell, improving operational efficiency.

- Led cross-functional collaboration to translate business needs into AI-driven solutions.

SharePoint Architect

Nov 2015 – Dec 2016

Baltimore County Gov

Towson, MD

- Designed and implemented SharePoint solutions, supporting enterprise project management.
- Developed dashboard reports and automated processes, enhancing data-driven decision-making.
- Led training sessions on SharePoint implementation and integration for project managers.
- Ensured compliance by applying security patches and updates to maintain system integrity.

Project Server/SharePoint Consultant

Mar 2009 – Nov 2015

Quintiles

Raleigh, NC

- Led the design and implementation of Project Server solutions for clinical trial management.
- Developed resource management solutions, optimizing project planning and tracking.
- Created custom components and automated deployment tasks, improving operational efficiency.
- Configured and monitored environments for seamless transitions across project stages.

KEY PROJECTS

AI-Powered Financial Risk Analytics

Mar 2024

- Developed AI agents for real-time financial risk analytics, leveraging Snowflake Cortex AI capabilities.
- Implemented RAG solutions to enhance data-driven insights and decision-making processes.
- Optimized AI model performance, achieving significant improvements in anomaly detection accuracy.

Healthcare Data Integration Platform

Nov 2023

- Architected a scalable healthcare data integration platform, incorporating AI governance frameworks.
- Enhanced interoperability with FHIR and HL7-based pipelines for seamless data exchange.
- Developed predictive models for patient outcome forecasting, supporting clinical decision-making.

EDUCATION

Andhra University

Jul 2000

Master of Computer Applications

Visakhapatnam, India

Nagarjuna University

Jun 1996

Bachelor of Sciences

Guntur, India

CERTIFICATIONS & ACHIEVEMENTS

- AZ-104: Microsoft Azure Administrator
- AZ-303: Microsoft Azure Architect Technologies
- Databricks Certified Data Engineer Professional
- AZ-304: Microsoft Azure Architect Design
- PMP certified professional
- 70-339: Managing Microsoft SharePoint Server 2016
- 70-343: Managing Projects with Microsoft Project 2013/2016
- MCAD: Microsoft Certified Application Developer
